**ABOUT US**

## ABOUT US

Priyarth Constructions & Production House is dedicated to bring environment friendly sustainable architecture and bring client's dreams and aspirations into reality. Since the inception of the firm in the year 2011 Priyarth House has developed into one of the innovative and respected firm.

Our works includes Public Buildings, Hospitality, Townships, Commercial Complexes, Institutional Blocks, Villas, Interior designing etc. Priyarth House is also known for its innovative use of materials and has been pioneer in introducing new materials.

## ABOUT US

Team at Priyarth housing is in continuous pursuit of new and modern materials developed, which provide better and ecofriendly alternatives for the most cost optimized delivery.

## PRIMO SERVICES

We provide best in class services with unmatched pricings. To cater every need of the client to go above and beyond the imaginations and create something unique.

## ENVIRONMENT FRIENDLY

As we pledged to take care of our mother nature, we are incorporating new eco-friendly materials in our works. Of-course it is client's approval to choose what works and fits best.

## GLOBAL STANDARDS

We adhere to the newest and best practices followed across the globe. Our team continuously researches for the new and most efficient ways/ materials being used to provide the best services.

# WHAT WE DO

## WHAT WE DO

### Construction

We are the first to provide Vedic Construction alongside the Modern Construction paradigm

### Architecture Creation

Our architecture plans are created keeping in mind the following:  
Structure strength, cost, local regulations as well as client's requirements

### Interior & Exterior Design

We provide regular as well as theme based interior & exterior designs

### Piping Plan

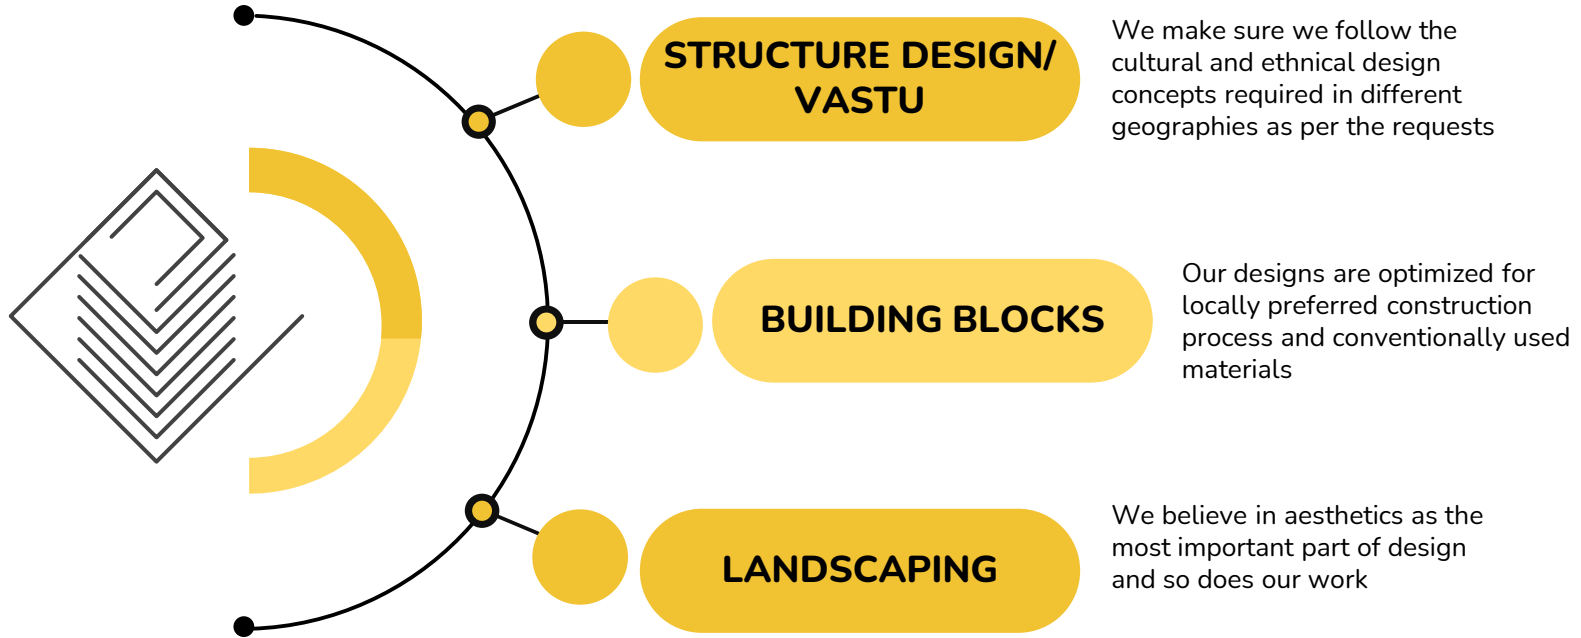

After careful analysis of basic structure, we create piping plans for plumbing and wiring avoiding overlaps and shorting mitigation

## LOCALIZED ARCHITECTURE & DELIVERY

### WHAT WE DO

## WHAT WE DO

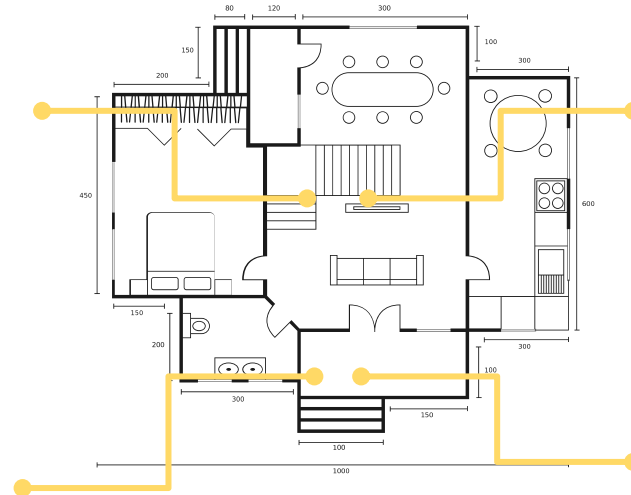

### Holistic Design

Our plans incorporate following design:

- Garden
- Swimming pools
- Deck/ Patio
- Interior
- Sanitation

### Aesthetics

In architecture different design style do play a significant role, for instance someone in Mexico will want spanish interior and in Japan the other person may want Swedish interior. We cater to all such needs.

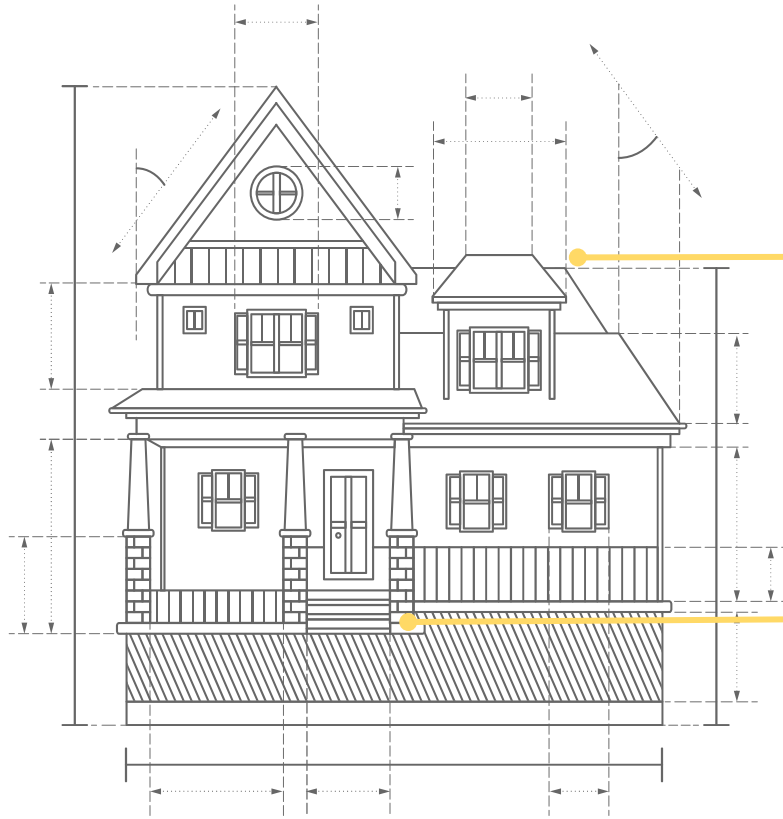

### Design

A complete study of the design is done by our team to implement local and traditional and contemporary elements in interior and exterior designs

### Traditional Vastu

Traditional Vastu is an Indian system of Architecture design, which takes planetary motions Geo- rotation, magnetics fields etc. to produce most healthy way of designing a house.

## WHAT WE DO

Our facade and interior designs are well in sync with following principles:

Material

Color and texture

Patterns and shapes

Lighting

Functionality

Scale and proportion

We offer detailed floor plans which are flexible, efficient, and able to accommodate the needs of the space.

We also consider circulation and traffic flow, ensure that all rooms are properly sized and placed in relation to one another, natural light flow and consider the best way to maximize the space available.

## WHAT WE DO

Our **3D designs** incorporate following features:

**Building Exterior** including Façade, roof, windows, doors etc.

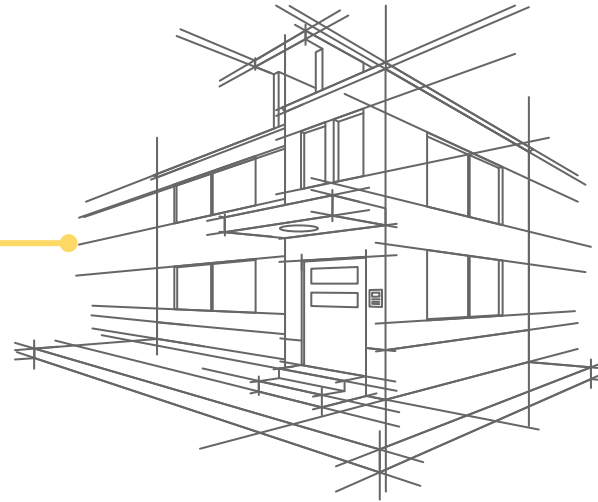

**Interior design** including room layouts, furniture, fixtures and finishes.

**Site plan** including landscaping, parking lots, sidewalks etc.

**Lighting** for accurate simulation of different weather and effects.

**Virtual walkthroughs** enabling client's to experience the designs from different perspectives.

**2D , 3D Animation**
